Boxwood Expands Service Offerings

We are pleased to announce an expansion of products and services to support lending clients in these times of uncertainty and increasing workloads. These new services include:

- **Stand-alone Building Inspections** – Verify or update the condition of the collateral since the last visit with either an exterior or interior inspection.
- **Asset Value Report** – Need a low-cost property valuation for individual loans or portfolios? Check out Boxwood's own version of a BPO, our AVR. It is performed by the same team of in-house appraisers and analysts you routinely depend on for reliable FieldSmart valuations.
- **Appraisals** – As previously announced, we recently expanded FieldSmart products to Restricted Appraisals in over 30 states and full Appraisals in the state of Florida.

Contact us for pricing and sample reports of any of the above.
